<p>The local area can't handle the traffic from crossely fields school drop off and pick up as it is so adding more traffic will just make congestion worse. It's also unsafe with the amount of cars at those times for pedestrian due to the volume of cars, how tight the roads are and both parked cars and moving cars having to mount pavements so adding more traffic will make the situation worse. It will also take away the little green space left in the area with public access. Also concerned about the drainage for local house as this does not seem to have been taken into consideration and does not seem adequate to replace the job that the field does collecting rain water. It will also ruin the beautiful landscape and views of the area and destroy the local wildlife and plants. The added traffic and cars will also add extra noise pollution and emissions pollution to the area.</p>
