The traffic congestion around wellhouse lane is already considerable and is severe around school pick up and drop off times. The increased number of cars will make the whole area grid locked. It is only a matter of time before someone is knocked over and killed. The lighting in the area is poor so in winter this likelihood is greater. The roads cannot support the increased volume of traffic from so many new houses. We already have problems with drainage in the area Crossley lane is already a rat run for cars speeding up and down at all hours We do not need these houses here as Mirfield does not have the capacity to absorb more families for our doctors, dentists and infrastructure. Please do not pass this planning submission.
