| <p>I wish to object to this planning application for the following reasons - The congestion in this area is already at a ridiculous level and at school dropping off/picking up times it is even worse, dangerous for both parents and children due to the sheer volume of traffic. The roads all around the area are very narrow and to build another 75 dwellings, putting additional private cars plus delivery vehicles etc into the area, would be a disaster for road safety. 75 extra dwellings will also put additional pressure on other local services which are already overloaded, eg schools, health centre, public transport etc. It would also mean losing yet more green space, vital for trees, wildlife and nature conservation, which we need to consider more than ever due to climate change. This development would also mean a loss of access to fields and outdoor space for local residents in an area which is slowly being swallowed up by development. These planning applications by Bellway have been submitted on a regular basis as long as I have lived in Mirfield, nothing has changed and lots of people object every single time with good reason. The infrastructure of the area simply cannot cope with more houses, people and vehicles and I sincerely hope that common sense is applied and this application is refused as all others have been in the past.</p> | |
