<p>This should not go ahead as there has been no thought for the safety of people around the area. The roads are too narrow to accommodate the volume of cars that will be using the roads. There is only 1 viable access route on Jenny lane, the traffic build up most mornings is from the traffic lights at the top of Sunny Bank Road, the number of cars could increase by 150 each day. Traffic is bad on Greenside Road at school times with the road being regularly blocked due to cars parking on either side of the road, dropping off their children. There has been no thought to improve the road system and facilities around the area for the extra families. Green spaces must be protected against the onslaught of corporate greed, the developers will make their money and leave. The residents having to make do with the complete misery they will leave behind, notwithstanding the construction traffic that will destroy the already failing road system which is already a serious hazard to car drivers and especially cyclists and motorcyclists.</p>
