<p>Highway Safety &amp; Traffic Impact – Creates danger or congestion on local roads.</p> <p>Wellhouse Lane and nearby surrounding roads cannot presently cope with the amount of cars especially at school drop off &amp; pick up times. The extra cars from the proposed development will severely impact what is already a busy area and the safety of both pedestrians and other car users. The fact that the access road to the development is so close to a school should be a sufficient reason for the refusal of such development. Both Wellhouse Lane and Hepworth Lane are single track in places which is also a series safety concern especially during the construction period</p> <p>Infrastructure Capacity – Strains local schools, healthcare.</p> <p>Local infrastructure cannot cope with current demands without the additional demands from such a large proposed development it will be untenable.</p> <p>The area is one of the few green spaces in the immediate area with footpaths that gives enjoyment to local residents.</p>
