Regarding planning notice application ref 2025/93355.

As an original resident of mirfield who's family have been here for generations - we cannot manage more people, the health centres and dental centres and hospitals are already struggling. The roads are awful, there is no where to park... we need green space not more concrete and people and the detritus we bring.

Green space is necessary for mental health - do you realise how many people here are on antidepressants and need mental health services - which are insanely disgraceful by the way - my [redacted] went to hospital in a coma and was discharged home 24 hours later for "community care" which means [redacted] is unable to work or sleep or relax, and [redacted] is back in the situation [redacted] was in thinking the same things ready to do the same thing

My [redacted] is [redacted] - we've been going through [redacted] and got no where, services are so overstretched that they use fake "criteria" to shrug people onto another service.... and yet you want to bring 75 more families here?

I can't even word how stupid this is.

Look at dewsbury - full of old concrete, massive unused car parks and buildings..... use that for new homes and leave our vegetation alone....global warming concerns? Absolutely- until a building company offers a little token.

NO - I don't want more homes.

I want a community that works.

But people need.... who cares - no one cared about us when we needed, I had to adapt, it's time people adapted.

12 brown street, mirfield.
