Subject: Planning Application 2025/93355 Land off Woodward Court Mirfield

Objecting to the above planning application

I wish to reiterate my previous concerns and that new measures suggested by Bellway Homes does not address the additional traffic congestion in Wellhouse Lane this development will cause. Wellhouse Lane and surrounding lanes are already significantly congested being single track in many places and cannot accommodate further traffic. The additional presence of Crossley Fields School makes the introduction of further traffic simply dangerous for all.
