Subject: Planning application 2025/93355

To whom it may concern,

I would to object to the planning of Bellway homes.

The traffic situation at school times around Wellhouse area is currently a nightmare as many students are not from the local area. I know this as fact as a colleague of mine who live in Dewsbury centre has children attending. Many of these cars are now currently encroaching onto Wellhouse Close thus causing many issues already, with an additional 140 plus cars and the whole area will be gridlocked at peak times. The road surface on Jenny Lane is shocking with poles add more cars and the road will dangerous.

Where are all these additional people going to go to the doctors / dentist / schools????

The whole project has not been thought through the only people benefiting from this are the council's receiving additional payments.

I strongly suggest this put to an independent board where hopefully common sensible prevail.
