Do you wish your comments to be published on the website anonymously?	Yes
I am concerned that the proposed development will increase traffic on small local roads that were never designed to to cope with the volume and size of even private vehicles never mind delivery lorries. As people then try to avoid traffic build up, more local roads are affected. Crossley Ln with it restricted views of on coming traffic and narrow lanes is an accident waiting to happen. I am also concerned that there will be an increase in run off during wet weather if fields which currently act as soak aways are lost. there have been a number of occasions when the bottom of Shillbank Ln has flooded. While homes might not be directly impacted there is a health and safety risk involved to drivers and pedestrians No consideration seems to have been given to how local primary school places will be increased to meet demand and what about doctors and dentists?
