Subject: Planning application - 2025/93355 - land off Woodward Court, Mirfield

Categories:

As a resident of Woodward Court I find it laughable that Bellway think that adding a few speed bumps and yellow lines will alleviate the traffic problem in the Wellhouse Lane and Woodward Court area.

The proposal of a yellow line on one side of the Court will do nothing to stop the cars that are parked before and after school. Presently we have to endure with cars parked in front of and even sometimes on driveways. All we get from the parents is a mouth full of abuse. Cars start parking for afternoon pick up from 2pm!

I don't think for a minute that their will be a traffic enforcement officer about to fine anyone who parks on the yellow line.

The speed bumps may slow traffic down but as it is congested anyway at peak times its not a cure.

Bellway's 500 plus page document has clearly been produced by AI.

During the summer and winter months Wellhouse Lane has cars parked all the way from Jenny Lane to Flash Lane during football matches and particulary cricket matches at Mirfield Parish Cricket Club. The cricket club not only runs two weekend teams but junior and ladies teams. During the season there are games every night of the week and afternoon/evening sat the weekend.

None of Bellway's traffic counts have taken this into consideration.

Bellway have had several applications turned down due to traffic problem and access to the site - nothing has changed.

Please see fit to turn this application down.

Thank you
