To whom it may concern,

I am writing to yourselves to document my objection to the Bellway planning application referenced above.
As a resident nearby the planned development with a small child, is extremely concerning not only for the additional population traffic this will bring in a very much unsuitable area due to the sheer size planned but also for the concerns in increased vehicle traffic that will pass through.

The measures listed by Bellway to address this is insufficient. Single, double yellow lines as well as one way proposals do not mitigate in any way the impact traffic will have on the area particularly regarding safety. Pathways are already narrow and in some areas require road walking as it is.

Parking on the side roads make the roads narrower and there is already a substantial amount of vehicles due to houses in the surrounding area causing blockages before adding unnecessary further housing.

Kind regards
