Subject: Planning Application 2025/93355

Dear Sirs,

Re: Planning Application 2025/93355 Land off Woodward Court

Further to our previous objections to the above application, regardless of the number of yellow lines or speed humps that are introduced it will not solve the problem of the number of vehicles using Woodward Court and Wellhouse Lane. This area is already heavily used by vehicles making the roads dangerous, particularly for the children of varying ages attending Crossley Fields School.

Regarding what has been suggested for Hepworth Lane is totally unsuitable and yet again will make that area dangerous to podestrians, cyclists and motorists.

Again we say this application is not a viable one.

Yours faithfully,
