

KIRKLEES METROPOLITAN COUNCIL INVESTMENT & REGENERATION SERVICE

DEVELOPMENT MANAGEMENT

Town and Country Planning Act 1990 (as amended) – SECTION 70

DELEGATED DECISION TO DETERMINE PLANNING APPLICATIONS

Reference No:	2025/62/93377/E
Site Address:	1, The Crescent, Kirkburton, Huddersfield, HD8 0TP
Description:	Erection of detached garage and workshop
Recommending Officer:	Jennifer Booth

DECISION – Full Conditional Permission

I hereby authorise the approval of this application for the reasons set out in the officer's report and recommendation annexed below in respect of the above matter.

Kirsty Nicholls

AUTHORISED OFFICER

Date: 17-Feb-2026

OFFICER REPORT

Site Description

1 The Crescent is a brick built, semi-detached dwelling with gardens to the front, side and rear.

The surrounding area is residential with properties of a similar age and style.

Description of Proposal

The application is seeking planning permission to erect a larger outbuilding.

The outbuilding has a width of 8.5m, a depth of 4.7m, an eaves height of 2.4m and an overall height of 3m. The roof form is pitched.

The walls is constructed with brick stone with tiles for the roof covering.

Relevant Planning History

None

Representations

The application was advertised by site notice, which expired on 05/02/2026

As a result of the above publicity, no representations have been received.

Kirkburton Parish Council have been notified and have raised no concerns.

Consultation Responses

None

Policy

Section 38(6) of the Planning and Compulsory Purchase Act 2004 requires that planning applications are determined in accordance with the Development Plan unless material considerations indicate otherwise. The statutory Development Plan for Kirklees is the Local Plan (adopted 27th February 2019).

The site is UNALLOCATED on the Kirklees Local Plan Proposals Map

On 12th November 2019, the Council adopted a target for achieving 'net zero' carbon emissions by 2038, with an accompanying carbon budget set by the Tyndall Centre for Climate Change Research. National Planning Policy includes a requirement to promote carbon reduction and enhance resilience to climate change through the planning system and these principles have been incorporated into the formulation of Local Plan policies. The Local Plan

predates the declaration of a climate emergency and the net zero carbon target; however, it includes a series of policies which are used to assess the suitability of planning applications in the context of climate change. When determining planning applications, the Council will use the relevant Local Plan policies and guidance documents to embed the climate change agenda.

Kirklees Local Plan Policies

- **LP 1** – Achieving sustainable development
- **LP 2** – Place shaping
- **LP 22** – Parking
- **LP 24** - Design
- **LP 30** – Biodiversity

Kirklees Council adopted supplementary planning guidance on house extensions on 29th June 2021 which now carries full weight in decision making. This guidance indicates how the Council will usually interpret its policies regarding such built development, although the general thrust of the advice is aligned with both the Kirklees Local Plan (KLP) and the National Planning Policy Framework (NPPF), requiring development to be considerate in terms of the character of the host property and the wider street scene. As such, it is anticipated that this SPD will assist with ensuring enhanced consistency in both approach and outcomes relating to house extensions.

National Policies and Guidance:

National planning policy and guidance is set out in National Policy Statements, primarily the National Planning Policy Framework (NPPF) published December 2024, and the Planning Practice Guidance Suite (PPGS) first launched 6th March 2014 together with Circulars, Ministerial Statements and associated technical guidance.

The NPPF constitutes guidance for local planning authorities and is a material consideration in determining applications.

- Chapter 12 – Achieving well-designed places
- Chapter 14 – Meeting the challenge of climate change, flooding and coastal change
- Chapter 15 – Conserving and enhancing the natural environment

A consultation draft of the National Planning Policy Framework (the Framework) was published on 16 December 2025. As a consultation, the document is at an early stage and subject to change. Accordingly, for the purposes of this application, no weight is given to the current consultation document.

Assessment

Principle of development:

The site is without notation on the Kirklees Local Plan (KLP). Policy LP1 of the KLP states that when considering development proposals, the Council will take a positive approach that reflects the presumption in favour of sustainable development contained in the NPPF. In terms of extending and making alterations to a property, Policy LP24 of the KLP is relevant, in conjunction with the House Extensions & Alterations SPD and Chapter 12 of the NPPF, regarding design. In this case, the principle of development is considered acceptable, and the proposal shall now be assessed against all other material planning considerations, including visual and residential amenity, as well as highway safety.

Impact on visual amenity:

Key Design Principle 1 of the House Extensions & Alterations SPD does state that extensions and alterations to residential properties should be in keeping with the appearance, scale, design and local character of the area and the street scene. Furthermore, Key Design Principle 2 of the House Extensions & Alterations SPD goes on to state that extensions should not dominate or be larger than the original house and should be in keeping with the existing building in terms of scale, materials and details.

Paragraph 5.29 and 5.30 of the House Extensions & Alterations SPD considers an outbuilding can have as much of an impact on the appearance of a building as any extension. These should be designed to reflect the style, shape and features of the host property and be subservient in terms of the scale of the original dwelling.

The proposed detached outbuilding would replace an existing outbuilding and would be positioned to the rear of the property and, while it is acknowledged that the structure is of a relatively substantial size, the host dwelling benefits from a generously sized corner plot that can comfortably accommodate the development without appearing cramped or over-developed. The use of materials that match those of the existing dwelling helps to ensure visual cohesion between the outbuilding and the main property, reducing its prominence within the street scene. As a result, the proposal is not considered to result in undue harm to the visual amenity of the area.

Having taken the above into account, the proposals would not cause any significant harm to the visual amenity of either the host dwelling or the wider street scene, complying with Policy LP24 of the Kirklees Local Plan (a) in terms of the form, scale and layout and (c) as the extension would form a subservient addition to the property in keeping with the existing building, KDP 1 & 2 of the House Extensions & Alterations SPD and the aims of chapter 12 of the National Planning Policy Framework.

Impact on residential amenity:

Consideration in relation to the impact on the residential amenity of neighbouring occupants shall now be set out, taking into account policy LP24

c), which sets out that proposals should promote good design by, amongst other things, extensions minimising impact on residential amenity of future and neighbouring occupiers. The House Extensions & Alterations SPD goes into further detail with respect to Key Design Principle 3 on privacy, Key Design Principle 5 on overshadowing/loss of light and Key Design Principle 6 on preventing overbearing impact.

There are no properties to the rear or to the west side which could be affected by the outbuilding. Furthermore, the outbuilding is set back from the adjoining neighbour. As such, there would be no overshadowing, overbearing or overlooking.

Having considered the above factors, the proposals are not considered to result in any adverse impact upon the residential amenity of any surrounding neighbouring occupants, complying with Policy LP24 of the Kirklees Local Plan (b) in terms of the amenities of neighbouring properties, Key Design Principles 3, 5, 6 & 7 of the House Extensions & Alterations SPD and Chapter 12 of the National Planning Policy Framework.

Impact on highway safety:

The proposals will not result in any intensification of the domestic use. Furthermore, the property has parking to the front and side which is considered to represent a sufficient provision. Bin storage for the dwelling would not be moved as part of the proposals. As such the scheme would not represent any additional harm in terms of highway safety and as such complies with Policy LP22 of the Kirklees Local Plan along with Key Design Principles 15 & 16 of the House Extensions & Alterations SPD.

Other matters:

Biodiversity

The development is for a single storey outbuilding within the curtilage of the dwelling. Whilst the property is sited in area, which is known to include bat habitats, in this instance, as the works proposed are single storey and include no work to the main roof, then it is considered unlikely to have an impact on the bat population.

Carbon Budget

The proposal is a small scale domestic development to an existing dwelling. As such, no special measures were required in terms of the planning application with regards to carbon emissions. However, there are controls in terms of Building Regulations which will need to be adhered to as part of the construction process which will require compliance with national standards.

There are no other matters for consideration.

Representations:

None

Negotiations:

None

Proposed conditions

As the outbuilding is in situ, it is not considered necessary to include the standard timescale condition, which is a requirement of Section 91 of the Town and Country Planning Act 1990. However, it is considered appropriate to add the following conditions.

Accordance with the approved plans to ensure the development is carried out in line with the officer's assessment.

Conclusion:

This application to erect a detached outbuilding to the rear of 1 The Crescent has been assessed against relevant policies in the development plan as listed in the policy section of the report, the House Extensions & Alterations SPD, the National Planning Policy Framework and other material considerations. Given the acceptable design and lack of harm in terms of visual and residential amenity, the proposals are considered to be acceptable.

The NPPF has introduced a presumption in favour of sustainable development. The policies set out in the NPPF taken as a whole constitute the Government's view of what sustainable development means in practice.

As set out above, this application has been assessed against relevant policies in the development plan and other material considerations. It is considered that the development would constitute sustainable development and is therefore recommended for approval.

Recommendation

Approve

Decision Authorisation - Delegated Powers

Application Number: 2025/93377

Officer Recommendation: Approve

Conditions and Reasons

1. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.

Reason: For the avoidance of doubt as to what is being permitted and so as to ensure the satisfactory appearance of the development on completion, and to accord with Policy LP24 of the Kirklees Local Plan, Key Design Principles of the House Extensions & Alterations SPD and the aims of the National Planning Policy Framework.

NOTE: The granting of planning permission does not override any private legal rights or consents that may be required. It is the responsibility of the applicant / developer to ensure that all appropriate consents are in place prior to any development commencing; during the period of construction existing access for neighbouring properties is maintained; and no damage is caused to the access driveway or surrounding properties.

NOTE: To minimise noise disturbance at nearby premises it is generally recommended that activities relating to the erection, construction, alteration, repair or maintenance of buildings, structures or roads shall not take place outside the hours of:

07.30 and 18.30 hours, Mondays to Fridays
08.00 and 13.00hours, Saturdays

With no working Sundays or Public Holidays

In some cases, different site specific hours of operation may be appropriate. Under the Control of Pollution Act 1974, Section 60 Kirklees Environment and Transportation Services can control noise from construction sites by serving a notice. This notice can specify the hours during which the works may be carried out.

Plans and specifications schedule: -

Plan Type	Reference	Web ID	Date Received
Location & Site Plan	001	1117261	10/12/2025
Existing & Proposed Elevations and Floor Plans	002	1117260	10/12/2025
Climate Change Statement	-	1117556	10/12/2025

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 and guidance in the National Planning Policy Framework, the Local Planning Authority have, where possible, made a pre-application advice service available, complied with the Kirklees Development Management Charter 2024 and otherwise actively engaged with the applicant in dealing with the application.

As the submitted plans were considered to be acceptable, no changes were sought.
