

Town and Country Planning Act 1990

**Town and Country Planning (Development Management Procedure) (England) Order
2015**

PLANNING PERMISSION FOR DEVELOPMENT

Application Number: 2025/62/93452/E

To: James Fearnley,
Hill Rise Architecture Ltd
1-3, Hill Rise
Chapel Lane
Emley
Huddersfield
HD8 9SP

For: M HOBBS

In pursuance of its powers under the above-mentioned Act and Order the KIRKLEES COUNCIL (hereinafter called "The Council") as Local Planning Authority hereby permits:-

ERECTION OF DETACHED DWELLING AND ASSOCIATED WORKS
(MODIFIED PROPOSAL)

At: LAND ADJACENT, 28, STRINGER HOUSE LANE, EMLEY MOOR,
HUDDERSFIELD, HD8 9SU

**In accordance with the plan(s) and applications submitted to the Council on
05-Feb-2026, subject to the condition(s) specified hereunder:-**

1. The development hereby permitted shall be begun within three years of the date of this permission.

Reason: To ensure compliance with Section 91 of the Town and Country Planning Act 1990.

2. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.

Reason: For the avoidance of doubt as to what is being permitted and so as to ensure the satisfactory appearance of the development on completion, and to accord with Policies LP1, LP2, LP3, LP7, LP20, LP21, LP22, LP24, LP28, LP30, LP52 and LP53 of the Kirklees Local Plan, Chapters 2, 4, 5, 9, 11, 12, 13, 14 and 15 of the National Planning Policy Framework, and Principles 2, 5, 6, 9, 12, 13, 14, 15, 16, 17, 18 and 19 of the Housebuilders Design Guide SPD.

3. The materials to be used in the implementation of this permission shall not be otherwise than as described and specified in the application and on the drawings hereby approved unless the prior written consent of the Local Planning Authority has been obtained for any proposed change or variation.

Reason: In the interest of visual amenity in accordance with Policy LP24 of the Kirklees Local Plan, the Kirklees Housebuilders Design Guide Supplementary Planning Document and the policies within chapters 12 & 13 of the National Planning Policy Framework 2024.

4. The dwelling hereby approved shall not be brought into use until all areas to be hard surfaced for access and parking have been and out with a hardened and drained surface in accordance with the Communities and Local Government; and Environment Agency's 'Guidance on the permeable surfacing of front gardens (parking areas)' published 13th May 2009 (ISBN 9781409804864) as amended or any successor guidance. These areas shall be so retained, free of obstructions and available for access and parking.

Reason: In the interests of visual amenity, highway safety and to mitigate flood risk. To accord with Policies LP21, LP22, LP24 and LP28 of the Kirklees Local Plan and meet the requirements of policies within Chapters 12 and 14 of the National Planning Policy Framework.

5. The development hereby approved shall not be brought into use until visibility splays of 2.4 meters by 43 meters in both directions from the access onto Stringer House Lane have been provided. The splays shall thereafter be retained free from obstruction exceeding 1 metre in height above carriageway level for the lifetime of the development.

Reason: In the interests of highway safety and to accord with Policy LP21 of the Kirklees Local Plan and policies within Chapter 9 of the National Planning Policy Framework 2024.

6. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (England) Order 2015 (or any Order revoking and re-enacting that Order with or without modification), no extensions, enlargements, roof alterations, outbuildings or other alterations to the dwellinghouse falling within Classes A, AA, B, C, D or E of Part 1 Schedule 2 shall be carried out without the prior grant of planning permission by the Local Planning Authority.

Reason: In the interests of safeguarding the character of the area and to protect the amenity of neighbouring occupiers, in accordance with Policy LP24 of the Kirklees Local Plan and policies within Chapters 12 and 13 of the National Planning Policy Framework 2024.

7. In the event that contamination not previously identified by the developer prior to the grant of this planning permission is encountered during the development, all works on site (save for site investigation works) shall cease immediately and the Local Planning authority shall be notified in writing within 2 working days. Works on site shall not recommence until either:

- a) a Remediation Strategy has been submitted to and approved in writing by the Local Planning Authority or,
- b) the Local Planning Authority has confirmed in writing that remediation measures are not required. The Remediation Strategy shall include a timetable for the implementation and completion of the approved remediation measures. Thereafter remediation of the site shall be carried out and completed in accordance with the approved Remediation Strategy.

Following completion of any measures identified in the approved Remediation Strategy a Validation Report shall be submitted to the Local Planning Authority. Unless otherwise approved in writing by the Local Planning Authority, no part of the site shall be brought into use until such time as the whole site has been remediated in accordance with the approved Remediation Strategy and a Validation Report in respect of those works has been approved in writing by the Local Planning Authority.

Reason: To identify and remove unacceptable risks to human health and the environment in accordance with Policy LP53 of the Kirklees Local Plan and policies within Chapter 15 of the National Planning Policy Framework.

8. The construction of the development hereby approved shall be undertaken in strict accordance with the submitted Construction Environmental Management Plan (CEMP Biodiversity), ref 2025/158 BNG, dated 10th December 2025 throughout the entirety of the construction phase of the development.

Reason: In the interests of biodiversity and in accordance with Policy LP30 of the Kirklees Local Plan and policies within Chapter 15 of the National Planning Policy Framework 2024.

9. Any external lighting which is installed shall be undertaken in strict accordance with the submitted drawing titled 'Proposed Lighting Plan' ref: 2025158/106 Rev P1, dated December 2025.

Reason: In the interests of biodiversity and in accordance with Policy LP30 and policies within Chapter 15 of the National Planning Policy Framework 2024.

10. The development hereby approved shall be carried out in strict accordance with the submitted drawing titled 'Tree Protection Measures' ref: 2025158/107 Rev P0, dated December 2025. All tree and hedgerow protection measures so approved by this condition, including fencing in accordance with BS 5837:2012, shall be implemented and retained throughout the entirety of the construction phase of the development.

Reason: In the interests of biodiversity and in accordance with Policy LP30 of the Kirklees Local Plan and policies within Chapter 15 of the National Planning Policy Framework 2024.

11. Prior to the first occupation of the dwelling hereby approved, one integrated bird nesting features and one bat box shall be installed within the fabric of the building and retained thereafter.

Reason: To enhance opportunities for biodiversity at the site and to accord with national policy set out in Chapter 15 of the National Planning Policy Framework, LP30 of the Kirklees Local Plan and Principle 9 of the Housebuilders Design Guide SPD.

12. Prior to the first occupation of the development hereby approved, the privacy screen to the southern elevation, as shown on submitted drawing ref: 2025158/103 Rev P6, titled Proposed Plans and Elevations, shall be completed with obscure glazing which achieves an obscurity of Pilkington level of four or equivalent. The obscure glazing shall thereafter be retained.

Reason: To protect the privacy and amenity of neighbouring occupiers in accordance with Policy LP24 of the Kirklees Local Plan, the Kirklees Housebuilders Design Guide Supplementary Planning Document and policies within Chapter 12 of the National Planning Policy Framework 2024.

13. Prior to the first occupation of the development, all side facing windows at first floor level on the Side Elevation (North) shall be fitted with obscure glazing or permanently affixed film which achieves an obscurity of Pilkington level of four or equivalent and shall be non-opening below the height of 1.7 meters from the finished floor level. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 as amended (or any Order revoking or re-enacting that Order) The obscure glazing or permanently affixed film shall thereafter be retained for the lifetime of the development.

Reason: To protect the privacy and amenity of neighbouring occupiers in accordance with Policy LP24 of the Kirklees Local Plan, the Kirklees Housebuilders Design Guide Supplementary Planning Document and Chapter 12 of the National Planning Policy Framework 2024.

NOTE: The granting of planning permission does not authorise the carrying out of works within the highway, for which the written permission of the Council as Highway Authority is required. You are required to consult the Design Engineer (Kirklees Street Scene: 01484 221000) regarding obtaining this permission and approval of the construction specification. Please also note that the construction of vehicle crossings within the highway is deemed to be major works for the purposes of the New Roads and Street Works Act 1991 (Section 84 and 85). Interference with the highway without such permission is an offence which could lead to prosecution.

NOTE: All contamination reports shall be prepared by a suitably competent person, as defined in Annex 2 of the National Planning Policy Framework 2021.

Reports must be prepared in accordance with the following guidance:

- Land Contamination Risk Management (LCRM)
- BS 10175:2011+ A2:2017 Investigation of Potentially Contaminated Sites. Code of Practice
- Development on Land Affected by Contamination - Technical Guidance for Developers, Landowners & Consultants - (v11.2) June 2020 by the Yorkshire and Lincolnshire Pollution Advisory Group.

The conditions relate to Planning Control only. Approval under the Building Regulations may also be required, and the applicant should contact their Building Control Provider for further information. Any other necessary consent must be obtained from the appropriate authority. If the applicant commences work without discharging conditions, they will be at risk of enforcement action and invalidating the permission if the planning condition is a pre commencement condition.

NOTE: No construction related noise shall be audible beyond the site boundary outside the hours of:

- 07.30 to 18.30 hours Mondays to Fridays
- 08.00 to 13.00 hours, Saturdays with no construction related noise audible beyond the site boundary on Sundays or Public Holidays.

Kirklees Council has powers under Section 60 of the Control of Pollution Act 1974 to control noise from construction sites and may serve a notice imposing requirements on the way in which construction works are to be carried out. It has additional powers under Sections 80 of the Environmental Protection Act 1990 to prevent statutory nuisance including noise, dust, smoke and artificial light and must serve an abatement notice when it is satisfied that a statutory nuisance exists or is likely to occur or recur. Failure to comply with a notice served using the above-mentioned legislation would be an offence for which the maximum fine on summary conviction is unlimited.

NOTE: The proposed development lies within a coal mining area which may contain unrecorded coal mining related hazards. If any coal mining feature is encountered during development, this should be reported immediately to the Mining Remediation Authority on 0345 762 6846 or if a hazard is encountered on site call the emergency line 0800 288 4242. Further information is also available on the Mining Remediation Authority website at: Mining Remediation Authority - GOV.UK

NOTE: Under the Coal Industry Act 1994 any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) require the prior written permission of the Coal Authority since these activities can have serious public health and safety implications. Such activities could include site investigation boreholes, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Failure to obtain permission to enter or disturb our property will result in the potential for court action. Application forms for Coal Authority permission and further guidance can be obtained from The Coal Authority's website at: www.gov.uk/get-a-permit-to-deal-with-a-coal-mine-on-your-property .

NOTE: If any future development has the potential to encounter coal seams which require excavating, for example excavation of building foundations, service trenches, development platforms, earthworks, non-coal mineral operations, an Incidental Coal Agreement will be required from the Coal Authority. Further information regarding Incidental Coal Agreements can be found at: www.gov.uk/government/publications/incidental-coal-agreement/guidance-notes-for-applicants-for-incidental-coal-agreements.

NOTE: In areas where shallow coal seams are present caution should be taken when carrying out any on site burning or heat focused activities.

NOTE: The applicant is reminded that if any evidence of bats, nesting birds, or other protected species is found during the course of works, all activity must cease immediately, and advice should be sought from a suitably qualified ecologist. It is an offence under the Wildlife and Countryside Act 1981 (as amended) and the Conservation of Habitats and Species Regulations 2017 to disturb, or harm protected species or their habitats. Failure to comply with the legislation could result in prosecution.

Climate Change Statement	-	-	05/02/2026

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2024 and guidance in the National Planning Policy Framework, the Local Authority have, where possible, made a pre-application advice service available, complied with the Kirklees Development Management Charter 2024 and otherwise actively engaged with the applicant in dealing with the application. No amendments were requested by officers, however, amended drawings were submitted to show the first-floor side facing windows on the northern elevation as obscure glazed. Details relating to ecology and balcony privacy screening were also provided and reviewed accordingly and area considered acceptable. Appropriate conditions are attached accordingly.

Building Regulations Approval is required for most work involving building operations and/or structural alterations. It is the applicant's responsibility to find out if the work permitted by this planning permission needs approval under the Building Regulations, and if necessary to submit an application. If you are not the applicant can you please ensure the applicant is aware of this requirement. Contact Building Control on Tel No: (01484) 221550 for more information.

It is the applicant's responsibility to find out whether any works approved by this planning permission, which involve excavating or working near public highway and any highway structures including retaining walls, will require written approval from the Council's Highways Structures Section. Please contact the Highways Structures Section on Tel No. 01484-221000 Ext 74199 for further advice on this matter.

Details Reserved by Condition

- This permission has been granted subject to conditions. Some of the conditions may require you to submit further details. These conditions normally contain the wording "*submitted to and approved in writing by the Local Planning Authority*".
- You can apply online for approval of these details at the Planning Portals website at www.planningportal.gov.uk. Alternatively the forms and supporting guidance for submitting an application can be found online at www.kirklees.gov.uk/planning.
- This Authority recognises the need to ensure that you are able to develop the site as effectively and flexibly as possible. However, at the same time it must ensure that development is in accordance with the terms of the planning conditions and legal agreement and the expectations of elected members and local residents set through the decision process.
- You should note the triggers for compliance with the conditions of this planning permission. This Authority is committed to processing applications to discharge conditions in a timely manner. It is important to ensure that submissions are made as far in advance of the trigger to allow time for adequate consultation, discussion and in some circumstances publicity.
- It is important that applications to discharge conditions are accompanied by sufficient information to enable this Authority and its consultees to fully consider and determine the proposals. Whilst officers will endeavour to negotiate solutions, failure to provide a comprehensive submission may result in delay and refusal of the application.
- If you commence work without discharging conditions you are at risk of enforcement action and invalidating your permission if the planning condition is a pre commencement condition.

Development within a Coal Mining Area

The proposed development lies within an area that has been defined by the Mining Remediation Authority as containing coal mining features at surface or shallow depth. These features may include: mine entries (shafts and adits); shallow coal workings; geological features (fissures and break lines); mine gas and former surface mining sites. Although such features are seldom readily visible, they can often be present and problems can occur, particularly as a result of new development taking place.

Any form of development over or within the influencing distance of a mine entry can be dangerous and raises significant land stability and public safety risks. As a general precautionary principle, the Mining Remediation Authority considers that the building over or within the influencing distance of a mine entry should be avoided. In exceptional circumstance where this is unavoidable, expert advice must be sought to ensure a suitable engineering design which takes account of all relevant safety and environmental risk factors, including mine gas and mine-water. Your attention is drawn to the Mining Remediation Authority Policy in relation to new development and mine entries available at:

[Building on or within the influencing distance of mine entries - GOV.UK](#)

Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires a Mining Remediation Authority Permit. Such activities could include site investigation boreholes, excavations for foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Application forms for Mining Remediation Authority permission and further guidance can be obtained from The Mining Remediation Authority's website at: <http://www.gov.uk/get-a-permit-to-deal-with-a-coal-mine-on-your-property>

[What is a permit and how to get one? - GOV.UK \(www.gov.uk\)](#)

In areas where shallow coal seams are present caution should be taken when carrying out any on site burning or heat focused activities.

If any future development has the potential to encounter coal seams which require excavating, for example excavation of building foundations, service trenches, development platforms, earthworks, non-coal mineral operations, an Incidental Coal Agreement will be required. Further information regarding Incidental Coal Agreements can be found here -

<https://www.gov.uk/government/publications/incidental-coal-agreement/guidance-notes-for-applicants-for-incidental-coal-agreements>

If any coal mining features are unexpectedly encountered during development, this should be reported immediately to the Mining Remediation Authority on 0800 288 4242. Further information is available on the Mining Remediation Authority website at: [Mining Remediation Authority - GOV.UK](#)

Digital Infrastructure: Fibre To The Property (FTTP)

Access to affordable and reliable broadband is necessary for Kirklees' residents, businesses, and visitors to take advantage of the growing digital economy and 'digital by default' services. Fibre optic cables direct to a property (FTTP) is the most reliable way of delivering high speed broadband connectivity and allows for gigabit internet speeds. Access to high quality digital infrastructure provides the foundations for, amongst other things:

- Economic prosperity – workforces that are digitally-literate enables business to thrive.
- Digital literacy – digital literacy and skills increase employability and people can exploit the internet for transactional, social, entertainment and learning purposes.
- New services – digital delivery can lower costs and provide innovative public and health services more conveniently.

It is therefore advised that digital infrastructure, including FTTP, and its benefits for the development be considered from the earliest feasible stage. Methods include working with Internet Service Providers to install digital infrastructure alongside other utilities or providing pre-infrastructure allowing for speedier installation at a later date.

Note: The provision of fibre infrastructure is often available from certain telecommunications providers free of charge for development over a certain scale, provided that sufficient notice is given. Notice periods are typically at least 12 months prior to first occupation. In some cases, providers may request a contribution from the developer.

Note: Where no telecommunications provider has been secured to provide fibre infrastructure by the time of highway construction, it is advised that additional dedicated telecommunications ducting is incorporated alongside other utilities to enable the efficient and cost effective provision of fibre infrastructure in the future.

Where the application has been publicised by notice(s) in the vicinity of the site. It is respectfully requested that the notice(s) now be removed and responsibly disposed of to avoid harm to the appearance of the area

Appeals to the Secretary of State

- If you are aggrieved by the decision of your Local Planning Authority to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.
- If an enforcement notice is served relating to the same or substantially the same land and development as in your application and if you want to appeal against your Local Planning Authority's decision on your application, then you must do so within:
 - i) 28 days of the date of service of the enforcement notice, or
 - ii) within the specified period, starting on the date of this notice,whichever period expires earlier.
- If you want to appeal against your Local Planning Authority's decision then you must do so within the specified period, starting on the date of this notice.
- The "specified period" is 12 weeks where the development relates to a "minor commercial application" as defined within the Town and Country Planning (Development Management Procedure) Order 2010 (as amended), or 6 months in any other case.
- Appeals must be made using a form which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN (Tel: 0303 444 5000) or online at <https://www.gov.uk/appeal-planning-decision>. Further information on the Planning Appeal process can be found online at the Planning Inspectorates website <https://www.gov.uk/government/organisations/planning-inspectorate>.
- You must use the correct Planning Appeal Form when making your appeal. If requesting forms from the Planning Inspectorate, please state the type of application that the appeal relates to so they can send you the appeal form you require.
- The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
- In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based their decision on a direction given by him.

Please note, only the applicant possesses the right of appeal.

Purchase Notices

- **If either the Local Planning Authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.**

In these circumstances, the owner may serve a purchase notice on the Council. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.

An important part of improving our service is to review your feedback on the way that we have dealt with your planning application(s). Please take a couple of minutes to email your comments to dc.admin@kirklees.gov.uk so that we can work on continually improving our customer service. Thank you.

Dated: 30-Apr-2026

Signed:

David Shepherd
