I'd like to object to this application as there is no justification as to why we should be building on GreenBelt. Whilst I appreciate this is an agricultural building, it does not give the right to build on GreenBelt without good reason. It would destroy long range view because of its position within the plot. The design and access statement is missing, therefore we can't comment on that. The position of the shed seems very odd, and I fear that change of use would be then next step.
