Unfortunately the design and access statement is a duplicate of the mining report so there is insufficient information online regarding this application. More details are needed as to the height of the building and, in particular, the anticipated volume of traffic accessing the site as well as the likely size of commercial vehicles. This is a large non-domestic building in a residential area. Carr Hill Road is popular with walkers, cyclists and horse riders and has no pavement along this stretch. There would be concern if large commercial vehicles frequently accessed the site as the road is very busy at times.
