As a resident of Carr Hill Road I wish to object strongly to the imposition of this "agricultural" development within an area of scenic beauty. Looking at the dimensions of the building and relating the relative size and potential number of vehicles and storage within in it it will be a veritable colossus dominating the entire landscape. There is no disclosure as to the actual usage of the development but indications are that it will be used for the processing of thatching material. The fields around there are already used to grow crops for this very purpose. From what I understand the process will be noisy, dusty and polluting. It will entail the arrival and departure of heavy goods vehicles along a road already blighted by HGVs. We strongly wish for this application to be turned down.
