I object to the proposed development on the grounds that it would have a detrimental impact on highway safety, residential amenity, and the character of the area. The proposal is likely to result in increased noise, disturbance, and odour, which would adversely affect nearby residents. The development would also lead to a direct loss of privacy, as our property would be overlooked by the proposed plans. There are serious concerns regarding increased traffic, parking pressure along Weavers Lane, and the use of construction machinery in close proximity to where children regularly play, raising significant safety issues. In addition, there is a designated green space used and maintained by residents of the neighbouring estate, who contribute financially to its upkeep. The impact of the proposed development on this green space must be fully considered. Finally, the proposed access and exit arrangements require reconsideration. Access via Weavers Lane would pose safety risks, and an alternative access point via Parkwood Road should be explored instead.
