<p>The submitted Grouped Plans and Elevations (id 1119969) are very confusing and bear little relation to the actual property. They would appear to be proposing the installation of the solar panels on the 'dark side' of the property ie the roof that faces North West and that attracts little to no sunlight. This seems to contradict the Application Forms (id 1119741) that refer to the "SE facing array", but that is definitely visible from the main road.</p>
