As a resident living on the same road, I wish to formally raise concerns regarding the proposed use of a privately purchased property on this council estate as a care home for individuals with mental health needs. While I recognise the importance of providing appropriate care and support, I have serious concerns about whether this location is suitable without robust safeguards in place. These concerns include the safety and wellbeing of nearby residents, the likely increase in traffic and parking pressures on an already residential street, and the potential for increased noise and disruption in an area intended for family living. Of particular concern is the close proximity of both an infant and a junior school, located approximately a quarter of a mile from the property, raising understandable worries around child safety and safeguarding. There are also complex and sensitive issues surrounding the potential impact on the mental health and wellbeing of the wider community, including the risk of antisocial behaviour associated with some service users if appropriate supervision, staffing, and support measures are not guaranteed. I believe these matters require careful consideration, clear planning controls, and meaningful consultation with local residents before any change of use is approved.
