

## **Appendix A – Climate Change Statement**

### **Climate Change Statement for Planning Applications**

#### **Part 1: Applicant details**

|                            |                                                        |
|----------------------------|--------------------------------------------------------|
| Name of applicant/agent    | Susan Azeez Latef                                      |
| Site Address               | 23 Moor Park Avenue, Huddersfield, HD4 7AL             |
| Description of Development | Double storey side and rear extension with raised roof |

#### **Part 2: Climate Change Mitigation measures**

|                                                                                                                                                                                                                         |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Please respond to the following questions considering the measures set out in the Climate Change Guidance note:                                                                                                         |
| Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)                                    |
| Low Energy Lighting                                                                                                                                                                                                     |
| Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3) |
| Locally sourced materials and contractors. Order materials are required to minimize waste                                                                                                                               |
| Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)                                                                                                            |

|                                                                                                                                                                                                                    |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| N/A. Possibly install EV car charger.                                                                                                                                                                              |
| Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5) |
| High Quality Insulation.<br>Low energy lighting.<br>Water efficient fixtures and fittings.                                                                                                                         |
| Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)                                                                       |
| N/A                                                                                                                                                                                                                |
| Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)                                |
| N/A                                                                                                                                                                                                                |
| Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)                                                                                                                       |
| N/A                                                                                                                                                                                                                |
| Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)                                                                                       |
| None. Given the scale and nature of proposals.                                                                                                                                                                     |
