F5-Case-788815744

Dear Elenya.

I am writing to object to this application.

Location -
22, Stringer house Lane
Emley
Huddersfield.
HD8 9SU

This land is adjacent to land & other neighbours, the land has been raised very significantly by approximately 2ft by filling in with rubble and soil excavated from under the property/ barn prior to construction, this has caused major drainage issues with water flowing onto land from the camber, causing a bog, damage to hedges and will eventually damage stable block, (which is masonry built).
Plus the possible health issues from whatever rubbish and rubble is mixed in with the soil when it was dumped there.(this is green belt land & needs to adhere to that)
The soil desperately needs to be removed (and deposited legally) and lowered back to the original level in line with all the fields around it and then adequately drained and only then can a wild flower meadow be created..

Yours sincerely
