I would like to add my support for this planning application. The proposed development will make a positive contribution to the local housing supply in Slaithwaite by providing much needed larger family homes. There is a clear need for local residents who want to upsize to be able to remain in the area, close to their families, friends and the community they are already part of. This development would help provide more options for people who want to stay in Slaithwaite as their housing needs change. I believe the proposed layout and design would make good use of the site and provide homes that fit well within the surrounding area. Providing a greater choice of housing locally would help families put down long-term roots in the community, which in turn supports local services and helps keep Slaithwaite a thriving place to live. For these reasons, I am very supportive of the proposed development and hope the planning application can progress positively.
