Dear Sir/Madam,

With regard to the above planning application at Upper Cumberworth, I would sincerely like to ask the Council to consider the implication these proposed houses would have on our threatened and diminishing wildlife.

Upper Cumberworth is a fine country village with lots of diverse wildlife - most of which would be under threat should the proposed housing estate go ahead as the proposed site is right up close to ancient woodland which to date supports this beautiful wild creature environment.

Wildlife is diminishing at a frightening rate of knots and we, as human beings are completely and utterly responsible. It is about time someone made a stand that enough is enough - we need a clear and coherent approach to environment - we should be investing in our precious wildlife - not threatening and demolishing it. The cost of inaction will be catastrophic.

Yours faithfully,

50, Carr Hill Rd,  
Upper Cumberworth  
Huddersfield
