<p>I strongly object to the proposed development of 123 new houses in Cumberworth.</p> <p>The site is an important local ecological area that would be irreversibly damaged by development on this scale. It is a valued green space where families regularly walk, learn about nature, and develop outdoor skills. My own family has spent time here taking part in forestry and environmental learning with Brownies and Guides, activities that depend on the area remaining natural and undisturbed.</p> <p>The local infrastructure cannot support this development. Roads, transport, schools, healthcare, and drainage are already under strain, and the addition of 123 homes would significantly worsen these issues.</p> <p>This proposal would spoil Cumberworth's rural character and natural environment, with lasting negative impacts. For these reasons, the application should be refused</p>
