<p>I am objecting to this planning application as it will negatively affect the natural environment and will pose a risk to the wildlife, trees and the natural landscape. Upper Cumberworth is a small community and adding this huge number of houses will negatively affect on the character of the area and will cause additional traffic noise, which will cause disturbance to the wildlife and negatively affect the quality of the air and increase air pollution.</p> <p>Barnsley Road is already busy with traffic from commuters, the 2 local quarries and the rubbish tip-this additional traffic will increase this even further and will negatively impact on highway safety and traffic.</p> <p>In addition, there will be a negative effect on neighbouring properties as the infrastructure is already limited with only a pub and 1 shop. There are no doctors surgeries or any other amenities. The school is already full and will not be able to accommodate the additional children the houses are likely to bring to the area.</p> <p>Please note that I do not give permission for my name, address or any other personal details to be published on the website.</p>
