<p>As a past resident of Upper Cumberworth, I am at present at my son's house, who still remains a resident of 20 years.</p> <p>I am appalled by the plans. Utter nonsense about housing requirements for the younger generation being spouted, when these houses are situated in HD8 and are totally unaffordable apart from the token "flats"....totally in keeping with the area. That's sarcasm by the way. Neither the houses or flats are in keeping with the surrounding bungalows.</p> <p>It's already impossible to get a doctors appointment.</p> <p>The traffic is chaotic and the average number of cars per house in HD8 is above the national average meaning yet more accidents on the crossroads around Cumberworth. The water pipes are always bursting around Barnsley Road and the fields. I have watched Yorkshire Water pour sewage into out beautiful ancient woodland this week... what will happen with another 120 houses.</p> <p>There are TPO's on the trees in the field but they appear to have disappeared from the plan.</p> <p>Greenbelt is there to protect sprawl...this isn't just greenbelt, it's actually farmed and is providing food for livestock. Do we just import that when you get rid of the fields? How does that fit with your net zero policies?</p> <p>The ancient woodlands...the buffer zone nationally is 50m. Vivly are using an outrageous 10m putting the woods and its wildlife in serious danger. The run off pollution for the development will pour into that woodland.</p> <p>An increase in the size of this village by this amount is not sustainable, or practical. As much as I keep hearing about transport infrastructure being good in the area....if you have used it, you know it's terrible. You can't walk anywhere to commute.</p>
