<p>I wish to object to the application made by Vivly Living . Despite what they say there has been no consultation with local people and ultimately this is Greenbelt land. The field is farmed and supplies an income to the tenant who rents it , today it is home to grazing sheep , feeding on winter grown turnips.</p> <p>Cumberworth cannot sustain this development and the infrastructure cannot cope . There is regular flooding in the field adjacent to this and the drain in which they are proposing to discharge foul waste was surging into the Ancient woodland on Sunday 8th February. Yorkshire water attended this pollution incident as they do regularly. The woodland is home to a variety of flora and fauna and these should be protected . The traffic is already at a maximum along this stretch and the roads are at capacity following approval of the quarry at Bromley Farm</p> <p>There is a regular supply of housing on rightmove under the affordable ceiling price Vivly are offering , as of today there are 85 under £250k . I do not accept that this is about affordable housing in this area. What it's about is making money by building 4/5 bedroom executive houses under the guise of looking after young people- nonsense . The plans have lots of errors .</p> <p>As this is a speculative application outside of the local plan , I urge you to reject it .</p>
