<p>I want to object to the application very strongly . I do not think Kirklees know what an asset they have in the Greenbelt land between birds edge and upper Cumberworth . This is an area I have regularly walked with my children as the long range views and the open sight lines are just beautiful . The paths from park lane and into the woods are a wonderful amenity . My children have played in the numerous streams and seen animals such as deer and birds up close . I couldn't believe it when I saw 123 houses were planned for the field adjacent to the woods . This will destroy them , the increased pollution from a development will destroy the streams , wildlife and the tree roots are likely to be irreversibly damaged.</p> <p>My children loved the finding of the prehistoric remains and the old mill and read the notice boards with great interest . Can you imagine the impact of all the extra , dust , noise and footfall.</p> <p>Once this green space has been lost it's lost forever . Upper Cumberworth will merge with Denby Dale and just create one large sprawl . Please Kirklees develop your brownfield sites , the old warehouses and tackle the empty homes, stop the profiteering of the developers .</p> <p>I discovered this gem of a village as a friend lived there until she passed away - I still visit and hope to be able to continue to do so without the presence of a large housing estate blighting the enjoyment.</p>
