<p>10m from designated ancient woodland..National standard is 50m. Irreparable damage to woodland and ecosystem.</p> <p>The woodland has Neolithic buildings, as do other parts of Park lane under the farmhouse..it is thought there are more significant archaeological remains under the fields. This must be investigated.</p> <p>This area is in KMC biodiversity plan as important and describes it as a wildlife corridor. Damage to the wildlife..hairy ants are protected. Foxes. Badgers. The deer actually give birth in this field. Bats In the barns.</p> <p>It is FARMED greenbelt land.</p> <p>Yorkshire water have stated they will not support because the network can not cope. Constant bursts and sewage spillage from this field and neighbouring fields on same network. Main road bursts constantly. Reduced water pressure now. The field has culverts which feed the wood which are not mapped but are vital.</p> <p>Vivly propose a pumping station next to the woods and will discharge foul water into them.</p> <p>Approaching an extra 500 car journeys a day onto a stretch of road with one of Hudds worst black spots (Sovereign) and the Carr Hill Rd rat run.</p> <p>I can't get a doctors appointment now. No dentist.</p> <p>Public transport is virtually non existent. An unreliable train once an hour which you have to drive to the station anyway because the footpaths aren't safe on the busy road and a bus that goes nowhere.</p> <p>The houses around are virtually all bungalows and the plans aren't.</p> <p>It will disturb the historic vista from Birds Edge to the church.</p> <p>This development adds a third to the village and will significantly change its character with no provision for infrastructure and schooling.</p> <p>Plus the fact that the developer stopped its consultation early, didn't respond to email and phone calls and has produced a consultation document which is an act of pure fiction.</p>
