Subject: Upper Cumberworth 2025/60/93572/E

Dear Planning Team,

I am writing to object about the plan to build houses on the Land South of, Barnsley Road, Upper Cumberworth, Huddersfield, HD8 8NN.

I am extremely worried about the effect the development of this area will have on the ancient woodlands adjacent.

The bird life, wildlife and water environment will be severely negatively affected, not only by the months of development, noise and air pollution, of additional traffic noise of lorries and construction. But on completion the 200 plus cars and related emissions of the householders.

This whole area will be turned into a sprawl of noise and concrete that breaks my heart.

I do hope you reconsider and reject this application.
