Subject: Planning Application, Upper Cumberworth 2025/60/93572/E

May I register my disappointment and strong OBJECTION to the above application 2025/60/93572/E for your consideration

I feel this goes against morals, and even CRIMINAL regarding the fact it blatantly involves the complete DESTRUCTION of PRIME, PRODUCTIVE, AGRICULTURAL, Land for All of my years from 1968. In the Village. It cannot be right to allow Opportunistic builders to destroy this for Easy Short Term Profits when modern life needs agriculture!

Surely there are STILL enough BROWN sites still available where they supposedly should build instead of easy picking prime.

I believe this site isn't even within your future build zone so no problem to refuse the application and make the builder stick to the RULES !!!

Another OBJECTION is the fact of its Proximity to Cumberworths Ancient Woods, and TREE !!!?

Our ANCIENT WOOD is full of Wildlife, DEER, OWIS, BUZZARDS, Mixed Bird Life too numerous to mention. Flowers, Fauna, and very popular, and also easy to DECIMATE ??

Being a volunteer, I realise the pressure/maintenance build-up this has caused, the proximity of this application to the woodland would DOUBLE THAT to be a Major Disaster and cause a Major Shortening of the WOODLANDS LONGEVITY !!!

That is a concept too horrendous to contemplate for the Village and surrounding area .

The A625 is a natural border between Village/Community and Agriculture, Pastures, Greenery, Wildlife, Hedges, Woodland !! all have survived over the years and hope to carry on with YOUR SUPPORT !!!

Hoping my considered OBJECTIONS give you cause for thought and hopefully pass a REFUSAL VOTE !!
