<p>Objection! I grew up in Cumberworth and have managed to sort a house to move back there...and suddenly this horrific planning permission was lodged. People want to live in Upper Cumberworth because it's a village..because it is in countryside, because it is not just a conglomeration of many villages such as Shepley/shelley & Clayton west/scissett. I was so excited about my new house and this has ruined it. This will totally change the face of this village forever.</p> <p>My childhood view on the walk down park lane across to the church will be obliterated. Building on greenbelt land in an area that Kirklees says is important for biodiversity and wildlife and the outrage of plan to build houses within 10m of an ancient woodland. 50 metres council, FIFTY METRES!!! Irreparable damage will be done to the woods and wildlife that live in it..</p> <p>The consultation document is fantasy. I know many of the village and nobody got a response and were spoken to apart from ONE house. The facts being mentioned about public transport are utterly laughable (which offends me that you are able to put untruths in applications) as are the car ownership details....HD8 has average car ownership of 2.5 per household, not the figure being discussed. That gives possibility of well over 500 car movements a day through one entrance on to a hugely busy road leading to a notorious black spot...allowing this development will destroy my dream of moving back to my perfect village. Please do not allow it.</p>
