<p>My main objection is houses SHOULD NOT be allowed to be built on GREEN BELT. Houses would hinder the green belts ability to absorb water. With recent heavy rainfall water was running off the field and into the ancient woodland. The loss of the field would cause considerably more water to reach the woods which would cause erosion and damage the habitat of the creatures living there. Drainage in Barnsley road is already creaking at the seams with regular repair work being undertaken.</p> <p>The large increase in population would place a larger strain on the facilities and services in the area. Traffic around the school is already chaotic during drop off/pick up times.</p> <p>Barnsley road is already a high density traffic road with drivers travelling at high speed past the entry/exit of the proposed development. Traffic collisions would be inevitable.</p>
