

About the application

Application number: 2025/93572	
What is the application for?:	Outline application with all matters reserved, bar vehicle access into the site,
Address of the site or building:	Land South of, Barnsley Road, Upper Cumberworth, Huddersfield, HD8 8NN
Postcode:	

User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	No
<p>I object to this proposal as: its overdevelopment of the site, the impact on local infrastructure, highway safety, loss of residential amenity, out of character with the area, drainage/flood risks concerns etc. The proposal of 123 dwellings is outrageous. It is not in keeping with the size, character and capacity of the surrounding area. These villages were not designed to house so many people. The villages continue to change for the worse because of the increased population. The infrastructure cannot cope. Can the doctors surgery handle over 123 more patients? Do the schools have the room for the children? Adding a junction to the main road i believe is simply not a good idea. People will struggle to get out of the junction and from my understanding it's a road people do speed on. On my recent journey on Barnsley road I noticed a lot of surface water where the houses intend to be build opposite. Also do 123 more people want to live that close to a tip? I believe the proposed development poses a risk to the local environment, Ancient woodland & wildlife. The only living badger I've ever seen was along Barnsley road and overdevelopment and increase in vehicles on the road will reduce the numbers of the wildlife we have left. This area houses a lot of wildlife and we should not be taking away from that as it's a pull factor for living here. Surely the 123 houses vivly living plan to build will affect the local house prices especially those who will be right next to it. There will be loss of privacy for neighbouring properties and an increase in disturbance and noise. The properties built by vivly living are very much cramped together, though they claim they aren't. Please stop ruining our beautiful countryside by taking away our green spaces, killing our wildlife, cramming in more houses, ruining local infrastructure etc.</p>
