<p>I have serious concerns about the impact of this development on highway safety and volume of traffic on an area that is already being put under strain by the current volume of traffic.</p> <p>There are numerous accidents at the Sovereign junction and the junctions both above and below the Sovereign as well as congestion issues. Carr Hill Road is used as a cut through, traffic often travelling above the speed limit. As there are several stretches of road without pavements it is putting local pedestrians, many of whom are elderly or school children, at serious risk. To add to this permission has been granted for quarry wagons to use these roads, the infrastructure is not adequate to withstand this level of use therefore any additional traffic would not be sustainable.</p> <p>The current state of the roads in and around the village is poor with numerous potholes and an increased volume of traffic would only further deteriorate the state of the roads. For the reasons I have listed I would strongly urge the authorities to reconsider this application.</p>
