<p>I have lived in the village for over 45 years and this is by far the worse thing that could to happen to the village.</p> <p>The destruction of a biodiversity of the planned site, and the adjoining ancient woodland, is beyond compare. There is a natural culvert that runs from the proposed site, that runs into the ancient woodland, that feeds the stream, which is the start of River Dearne.</p> <p>The proposed buffering is only 15 metres which insufficient should be 50 meters.</p> <p>Wildlife will be affected, Deer, Fox, a colony of Hairy Ants, bird life, Buzzards, Woodpeckers, Wrens, lots more.</p> <p>Traffic will be coming out on to an already busy Barnsley Road, putting pressure on the junctions with Carr Hill Road and Cumberworth Lane. And junctions with Carr Hill Road, Penistone Road and Sovereign Crossroads, which are already accident black spots. Plus on top of the already agreed planning for 120 lorries per day, going along Cumberworth Lane and coming out for the Bromley Farm site at Barnsley Road for five and half days a week. The air quality will become non existent, noise and dust. Putting school children in danger, that will be waiting for their school bus.</p> <p>The pressure that will be put on local schools / doctors / dentists which are already at bursting point.</p>
