<p>I'm the landlord of The Star inn and have been since late September. I have a birds eye view of the cross roads in the village and my worry is that an accident will happen with the volume of traffic that we already experience. That will obviously double or treble and at peak times. The amenities are not in place to bring successfully around a well developed community on top of what we already have got. The speed limit needs to drop to 30mph if they get the go ahead but that should be happening anyway. The ancient woodland go back to the 1600s and they have got to build 15m away but that is not enough. It should be 50m. The woodland will get damaged because of the impact on their roots. Trees hold the water and keeps it in the ground and it holds land together and you cant keep on developing and not having a root system underneath. You look at that land as you come up, and you think how can you develop on that? People see me as the landlord of The Star and will automatically think I am in favour of welcoming more people in. But when the infrastructure is not there, I am vehemently opposed. Safety before profit.</p>
