<p>I strongly believe the impact of this proposed development cannot be underestimated. The local area supports an abundance of wildlife which would be significantly harmed or displaced as a result of this scheme. This designated Green Belt land plays an essential role in maintaining the character and identity of the local community.</p> <p>Furthermore, the scale of the proposed housing would result in a substantial and detrimental change to the area. The number of properties proposed is not sustainable when considered against the current infrastructure, which lacks the capacity to support such an increase in demand on local amenities and services.</p>
