<p>I was shocked to hear about the potential development on this site. I understand that there is a need for housing in the area but to choose an area that has long stood as an area of natural beauty and is used by many as access to ancient woods for recreational purposes I cannot fathom when there are so many true brown field sites to choose from.</p> <p>My other concerns and possibly more valid is the increase to road traffic and safety of entering and exiting the site. With a potential 125 houses and each household having 2 cars, that's 350 cars and an average 350 movements per day - at least. There is a local primary school close to the site with young children having to cross this busy road to get there. Yes there's a predestination crossing but you need to cross a road on a busy junction to get to it.</p> <p>The school is small and does not have capacity to take more children unless it is extended therefore children will need to attend other schools in the area ie Denby Dale, Skelmanthorpe consequently more movement of cars at busy times - an accident waiting to happen!</p>
