

11-2-26.

Upper Cumberworth
2025/60/93572/E

I would like to object to the planning application of 125+ houses.

This site is green belt land once built on we cannot ever get that back, it will no longer feed our ever growing population and very much affect our wild life including bats,

125+ houses will affect already quite heavy traffic up and down Carr Hill Road, The cross roads at Sovereign and Carr Hill road are a night mare with the already

heavy traffic.

The ancient wood adjoining the proposed development has to be protected, there are still ancient archaeological remains also the habitat needs protecting in the Upper Cumberworth Area,

These proposed houses will affect the current sewers, drainage and most important water supply, worse than it already is,

My feelings on this proposal are very strongly against any building on the green Belt field in Upper Cumberworth.
