

February 11th 2026.

To whom it may concern,
I am writing today to give
my thoughts on the proposed
building of 123 plus houses on
Green Belt land in my little village
of Upper Cumberworth. We have
very few amenities in the village
a Post Office and a Primary school
surely not enough for all those
houses.

There is also already so
much house building going on in
the surrounding area, including
Denby Dale, Skelmanthorpe and
particularly Shepley so to think
of any more new houses just
seems ludicrous.

People need green spaces for
our well being and so this is totally
against any more new houses
p.k.

2

in this area.
