I frequently visit family in the village and have always enjoyed walking in the area. The surrounding undeveloped fields are central to this experience; they play an important role in preserving the village's distinct rural character.

Development here would result in the permanent loss of open countryside within a clearly agricultural area. The scale and nature of the proposed development is disproportionate to the size of the village and not in keeping with its landscape setting.

I'm also concerned about how close the proposed development would be to Upper Dearne woodland. This is an attractive and well-used natural area, and development at such a short distance could adversely affect local wildlife.

I strongly object to the proposal as the site is designated Green Belt land. I believe the proposal would cause significant harm to the character and landscape of Upper Cumberworth and should be refused.

Kind regards
