<p>I strongly object to the proposed building of 123 houses on this land .It is greenbelt land which is not in the local plan .The site is opposite the part of the village which is in a conservation area and if the site is developed it will block views of the buildings within the conservation area from Park Lane and wider views from Birds Edge including the public footpath which leads from Park Lane into Stephen Woods .</p> <p>I note the proposed siting of the attenuation tank for runoff water and the proposal to install a pump to pump sewage up Barnsley road to the main drain - what happens when these methods fail ?The extra runoff and sewage will end up in the ancient woodland and the trees and plants and aquatic life will suffer the consequences of the pollution .</p> <p>This is not the site for this development .</p>
