<p>I am for this planning by vivly. I have lived in the village all my life till I had to move to buy a house as there's not many that come up for sale. I still go to the local pub which over the last few years has change hands a few time due to not enough customers. which a new housing estate would help the pub stay open and other local businesses around the area. There are good transport links not a mile away it's the train station and busses pass going to Huddersfield, Wakefield and holmfirth. Seen comments on some saying traffic will be higher but most people buy a house that's on route to there work place so can't see that much to a change in the traffic as there probably passing that site now. An article posted in the examiner last year saying some of the local schools may have to close due to lack of students this would bring new children in to the catchment so hopefully this would keep the schools open. The plans look like they have been thought through with tree lined streets and open spaces for people to enjoy from the people who may buy the new homes but also everyone already in the village. The village now has a lot of people that don't like the change as they have been there a long time, but I think it's what the village needs.</p>
