<p>I have been visiting and watching my family grow in the village for over 30 years, and I feel it would be a shame to see the character of the lovely village be destroyed. Over the years I have had the opportunity to explore the woodland and see the many wonderful trees and plants that grow there. The birdlife, as well as other small creatures is amazing and so different with each season. The size of the housing development proposed and so close to the woodland would be such a shame, destroying the many habitats and driving out many of the creatures that reside there. The damage this development would do would be irreversible and it would be such a shame to this lovely little village.</p> <p>As an elderly person visiting the village my mobility is not as good as it once was, The lack of pavements, the narrowness of others and the speed of vehicles through the village now means that it is extremely dangerous for me to move around the village. This development would massively increase the volume of traffic through the village and would make it impossible for me and others with restricted mobility to even get to the shop in the village.</p>
