<p>I object to the planning application 2025/93572 for the following reasons; The loss of green belt land and the impact it will have on the native flora and fauna. The increased pollution, traffic and noise. The increased population effecting the fragile infrastructure of a small village. Building these houses will only contribute to the on going problem of power cuts and a sewage system that cannot cope, evidence of this is often seen over spilling into the ancient wood adjacent to this land. The increased traffic will no doubt be the cause of more accidents on the narrow roads and dangerous junctions nearby. These fields are productive green belt land being used to grow crops and graze livestock and not for building house on!</p>
