<p>My strong objections to this development are as follows: The site is Green Belt land..allocated in the Kirklees Local Plan 27 February 2019. Upper Cumberworth has been a conservation area for over 30yrs...this development would harm drastically the rural character of the village. This development would increase the size of the village by approximately a third. This would place significant strain on already stretched infrastructure. The development would substantially increase traffic on already busy roads and nearby junctions, leading to greater congestion , higher accident risk and reduced safety for all pedestrians in the village, school children, older people, disabled people etc. The development would seriously harm the natural environment, including farmland and habitats used by deer, hedgehogs, bats, birds and other wildlife. It would also impact long established trees and the wider landscape. Drainage from the site risks negatively affecting the adjoining Ancient Woodland and nearby stream. For these reasons this development is inappropriate and cause lasting harm to the character, environment and community of Upper Cumberworth and surrounding villages.</p>
