Subject: Planning Objection Upper Cumberworth

Reference: Upper Cumberworth
2025/60/93572/E

Att: Kirklees Council Planning and
Development Service

I submit my objection to the planned Upper Cumberworth development (ref: 2025/60/93572/E) as follows:

1. The proposed development will severely impact the immediate area by greatly increasing traffic flow and therefore subsequent traffic congestion. In addition, potentially more accidents and certainly serious parking issues.
2. The addition of approximately 123 new houses will certainly not enhance the rural setting or indeed, the currently unspoilt Green Belt land in the area.
3. Another few hundred people living in the proposed houses is definitely not beneficial to the area, in terms of services and facilities locally, as well as the potential overload and ensuing problems, regarding drainage, sewer and water problems.

I therefore strongly object to the proposed planning in Upper Cumberworth and the negative impact it will have on all the current residents and the area.

Thank you.
