<p>I wish to object to this development my reasons being.</p> <p>Upper Cumberworth is not in the Kirklees local development plan and the site is green belt agricultural land and is used as such.</p> <p>The proposed development is far too large for the village and will increase its size by over a third, this will massively impact the traffic on an already congested Barnsley Road, Carr Hill Road and Cumberworth Lane. The congestion particularly bad during school start/finish and rush hour times, the amount of traffic causes huge ques at the sovereign cross roads and Carr Hill Road becomes a rat run with cars trying to avoid it. With permission already granted for a quarry with wagons travelling up Barnsley road and then also construction traffic taking the same route, as a community we would have a lot of unacceptable heavy traffic and noise.</p> <p>I'm also concerned what effect such a large development will have on the ancient woodland, the change in drainage and run off water will obviously effect everything that grows and lives in the wood. The 10m buffer zone is not adequate and will not protect the woodland.</p>
